## **Important Information for the post of Transport Expert.**

### **Qualifications and Experience**

- Maximum age as on date, 1.11.22025, should not be more than 40 years.
- A graduate in Transport Planning, Urban Transport Systems, Transport Management or in any other course in transport sector.
- **At least 3 years of experience** in public bus operations, Preferable in an urban public transport environment.
- Deep knowledge of urban transport systems and a proven ability to keep services running smoothly.
- Confidence in using tools like Excel, Power BI, or Tableau to turn data into stories.

### **Skills & Knowledge**

- Solid understanding of BRTS/city bus operations, especially in electric/CNG bus deployment.
- Familiarity with depot management, energy infrastructure, and vehicle-charging system interfaces.
- Proven ability to work collaboratively with diverse teams and external stakeholders.
- Analytical mindset to connect data insights with operational and infrastructure planning.
- Must have deep understanding of multi model transport integration.

### **Daily Operations Oversight**

- Manage day-to-day fleet deployment, driver assignments, and adherence to schedules.
- Coordinate with our Central Control Centre to ensure seamless, safe and reliable operations.
- Troubleshoot operational disruptions swiftly and ensure a positive passenger experience.

### **Infrastructure Readiness & Optimization**

- Assess and monitor the operational readiness of depots, charging stations, and route infrastructure to support bus performance.
- Plan and oversee upgrades or minor expansions of transport infrastructure (e.g., new chargers, depot layout adjustments) in alignment with operational needs.
- Work with civil and electrical engineering teams to ensure infrastructure improvements meet operational standards and support long-term service goals.

- Lead AMTS/BRTS Infrastructure development projects in swift manner in Multi Stakeholder environment.
- Collaborate across departments to ensure transport infrastructure and operations evolve with city needs and emerging technologies.
- Identify gaps in service or infrastructure and propose solutions to enhance safety, sustainability, and passenger comfort.
- Prepare periodic reports and data-backed insights on operational performance and infrastructure status for AMTS/BRTS management.

## **Transport Data Specialist**

- Analyze the fleet's data; everything from kilometers driven to energy efficiency and find ways for optimization.
- Develop easy-to-read dashboards that highlight key insights for AMTS/BRTS management.
- Look for patterns in delays, energy use, and performance; then propose practical solutions.
- Prepare monthly reports that help us stay accountable and transparent.
- Carry out route analysis based on O.D. data, passenger demand, revenue model and advice on the same and appropriate scheduling.

## **E-Bus Technology and Charging Infrastructure Specialist**

- Oversee the electric bus fleet: the propulsion systems, batteries, and cooling systems.
- Ensure that our buses meet safety, energy, and operational standards at all times.
- Work with manufacturers to resolve technical issues and keep our e-buses running.
- Monitor depot charging infrastructure to guarantee uptime and safe operations.

## **Digital Systems Expert**

- Make sure GPS, CCTV, PIS, and other ITS components are always working and talking to each other.
- Troubleshoot and fix any integration issues quickly to keep real-time data flowing to our control center.
- Work with vendors to upgrade and expand our digital systems as technology evolves.
- Develop protocols for data security and real-time monitoring; because passenger safety comes first.
