National Disaster Management Authority
Government of India
Position: 2 Project Manager
Subject – GIS Management

1. Background

The National Disaster Management Authority (NDMA) is the apex-level institution for disaster management in India. The Disaster Management Act, 2005 provides for setting up the NDMA along with a host of other institutions at the national, state, and district levels. Chaired by the Prime Minister, the NDMA is mandated to lay down the policies, plans and guidelines for disaster management, and implement various programmes related to various aspects of disaster management. Since its inception, NDMA has taken several initiatives and programmes in strengthening disaster preparedness and mitigation, improving disaster response and recovery, and supporting capacity-building activities in the country.

NDMA has developed GIS based application tools to create custom applications to meet specific user needs, ranging from spatial data conversion programs to interface designs that support inexperienced users to unlock the information and use it to identify patterns, make better decisions on a continuous basis, NDMA is using GIS to analyses complex situations, visualize problems, and create plans and solutions, which will also increase the efficiency, improving communication and collaboration and help to coordinate work across organizations. This is a focused area that requires specialized skills and partnership with concerned Ministries/Departments and other institutions dealing with the required expertise.

2. Job Description

Working within the Mitigation Division, the Project Manager will assist the Member and Advisor, Mitigation in developing various programmes and technical assistance related to the subject. The Individual will develop guidelines for formulation and implementation of GIS management programme. The Individual will monitor the GIS situation in the country, set up a monitoring framework. The Individual work with the GIS and database team to set up a database.

3. Position (in numbers): 2

4. Key Tasks and Responsibilities

Project Manager will work under the overall supervision of the concerned Member/ JS / Advisor, NDMA and attend to following tasks and responsibilities:

- Project Manager (GIS Management) will provide technical assistance to NDMA in the implementation of the state of art geospatial lab within NDMA and support coordination with the central and state agencies.
- In addition, Project Manager will assist NDMA in developing projects and programs and its implementation with monitoring.

- The Individual will also undertake capacity-building and strengthening measures to escalate the use of geospatial technology in DRR among all the stakeholders.
- Provide technical advice on related matters related to GIS and help to coordinate with other organizations and entities working in this area.
- Support formulation of geospatial policies, strategies, and guidelines to strengthen the geospatial technology to be use in disaster management in the country.
- Provide technical assistance to central and state governments in developing an integrated geospatial platform to provide information on emergency management facilities for the prevention of hazards.
- Develop Integrated Hazard-zonation Map of different part of the country with respects to various natural/man made hazards at different map scale or resolution along with census data for their easy implementation as effective tools for mitigation measures and decision-making processes for pre during and post disaster se scenario.
- Contributions in risk mapping with respect to hazard & vulnerability with assistance from Academia, Research institutes and other professional bodies.
- Contributions in implementing the State of Art GIS lab in NDMA to provide support to all stakeholders.
- Carry out secondary research on different aspects and global trends in geospatial technology and its use in the field of disaster risk management and prepare thematic papers and strategies
- Documents national & global good practices on utilization of geospatial technology in disaster management and disseminate them to key internal and external stakeholders.
- Support in organizing international/national workshops, seminars, and conferences.
- Any other assignment/work on the subject given by the concerned Member/JS/Advisor, NDMA.

Deliverables:

The Project Manager will be responsible for delivering the following: -

- An initial action plan on GIS needs and recommendations for interventions.
- A comprehensive GIS intervention programme, which involves the application of guidelines, protocols, and tools.
- Convening training programmes which apply training materials and resources for capacity building initiatives.
- Regular progress reports on implementation activities and outcomes.
- An annual report summarizing the achievements, challenges, and recommendations for sustaining GIS services in the long term.

5. Duty station: New Delhi, India

The Project Manager will be based at NDMA, New Delhi and is required to travel to field locations, as necessary, to support intervention implementation and monitoring.

6. Status (Full time/Part Time/Short term or Long-term): Full Time. It is a full-time engagement and Project Manager shall not take up any other assignment during the period of engagement with NDMA).

7. Competencies and Skills required:

- Promoting the vision of NDMA
- Strengthening technical expertise
- Formulating concepts and strategies
- Managing resources
- Ability to work in a team situation and engage with diverse stakeholders
- Inter-personal and communication skills
- Proactive engagement and dialogue
- Strategic advice and communication
- High order skills in operating spreadsheets and databases
- Skilled in making presentations

8. Language proficiency: Fluency in written and spoken English is required for this position.

9. Educational Qualifications (Essential/Desirable):

- Essential Qualifications: Master's degree ECE/Civil/IT/Geo-Tech, or in Physics/geography/geology/environmental science/remote sensing/geo-informatics or any other related disciplines.
